

Stair treads

Complementing a beautiful floor solution with stair treads in the same material is an obvious choice that makes for a simple and calm expression. Wooden stairs can also be used as a decorative natural element in a space characterised by concrete, stone and glass. Please note that we supply planks, not a ready made staircase. Available in Classic and Natural in standard measurements.

Classic

Subtle structure with a classic expression. Harmonious and calm. The planks have insignificant knots. The back may show hairline windshake. The planks are sanded on 2 sides.

Natural

Dynamic structure with a natural expression. Authentic and warm. The planks have more knots, but no edge knots. The back may show hairline windshake. The planks are sanded on 2 sides.
