

Oak

Seeing an oak tree in nature is always an impressive experience, and its vitality is outstanding. We take pride in producing oak planks that preserve and respect the personality of the tree. We source our raw wood from large, up to 200-year-old oak trees of the finest quality from forests in Denmark and around Europe. Along with the careful processing, this makes Dinesen Oak unique.

Classic

Subtle structure with a classic expression. Harmonious and calm. Fewer knots.

Natural

Dynamic structure with a natural expression. Authentic and warm. More knots.

Full lengths

Full-length planks are an elegant solution. The clean lines make for a calm expression and can be used to highlight the architecture of a room. Full lengths are a good choice if you want a simple and clean expression. It takes large amounts of raw wood to produce full-length planks, so delivery time may be long.

Random lengths

Planks in random lengths are delivered in available lengths. This makes for a fluid transition from one room to the next and a coherent expression that is perfect for many projects. Each plank is made as long as possible, which makes it possible to use a very high proportion of the raw wood.

Oak

Oak planks give you an elegant, almost understated look. A treat in itself. Or you may choose to challenge the simple look and create a less conventional interior design solution. Mixed widths add a more dynamic look, while colored oils strike new notes. Choose between Classic and Natural.

Depending on our stock of raw wood and the desired delivery time, Oak is available in full lengths. Please contact Dinesen for a bespoke solution.

Random lengths	Thickness	Width	Length	Classic Price per m ²	Natural Price per m ²	Classic / Natural Price per m ²
	22 mm	125 mm	1 – 3 m	103 EUR		87 EUR

GrandPattern

GrandPattern is an option where large planks are laid in familiar historical patterns. A modern solution with respect for history, which takes on a contemporary and exclusive appearance due to the proportions. Choose between GrandOak and Oak.

For planks wider than 300 mm, make sure to allow for the fact that the planks have to be laid with a 2 mm gap in accordance with Dinesen's additional "GrandPattern" instructions.

Herringbone

Solid planks laid in a herringbone pattern is a timeless solution. Choosing large dimensions in the individual planks takes the classic pattern to new heights with an impressive expression and an elegant look.

Chevron

A distinctive graphic pattern that takes on even more character in large plank dimensions. Finishing the planks in the same color creates a beautiful uniform expression.

The material consumption of Chevron is higher than the other patterns as the planks must be customised individually.

Mosaic

The mosaic pattern is a classic solution which achieves a new and elegant expression with solid planks in larger dimensions than what is traditionally used. The pattern can be individually customised and attracts attention with its extraordinary dimensions.

Bond

The planks are laid in a bond, giving you the option of putting your own personal touch on the expression in your choice of dimensions. A traditional solution that creates a smooth transition and a beautiful interplay between the solid planks.

General

About the planks

The planks are supplied unfinished and have a moisture content of 8-10 %. Dinesen floor planks are CE-labelled in accordance with EN 14342.

Delivery times

Delivery times for the various dimensions and types vary and may in some cases be considerable. For more information on delivery time, please contact Dinesen on +45 7455 2140.

Installation

Always consult our instructions or contact our technical department at info@dinesen.com or +45 7455 2140.

Underfloor heating

All Dinesen planks are suitable for underfloor heating.

Maintenance

We recommend Dinesen products for finishing and maintenance. Our soaps are made especially for Dinesen floors and contain components that secure correct maintenance of the floors.

To preserve the beauty of your Dinesen floor, you need to use Dinesen's maintenance products. We cannot assure the durability and condition of the surface if other products are used.

Webshop

Our webshop with maintenance products and instruction videos can be found at dinesen.com.

Prices

The present price list was released on 1 January 2019. All the listed prices are stated in EUR per m². All the listed prices are exclusive of VAT and delivery.

We do not accept any liability for printing errors.
