

Douglas

Towering up to 60 metres tall, Douglas is a tree that stands out. The grand expression is preserved in the planks, where the unique grain bears testimony to nature's power and beauty. We source our raw wood mainly from the Black Forest, and only the best of the 80 to 120-year-old trees have what it takes to get through the eye of the needle. It is this careful selection and the extraordinary craftsmanship that place Dinesen Douglas in a class of its own.

Douglas planks create a highly elegant and harmonious expression due to the extraordinary dimensions. An extravagant solution with clear references to the majestic Douglas tree. Choose between Classic and Natural.

Classic

Subtle structure with a classic expression. Harmonious and calm. Fewer knots.

Natural

Dynamic structure with a natural expression. Authentic and warm. More knots.

Douglas – Random lengths

Planks in random lengths are delivered in available lengths. This makes for a fluid transition from one room to the next and a coherent expression that is perfect for many projects. Each plank is made as long as possible, which makes it possible to use a very high proportion of the raw wood.

Random lengths	Thickness	Width	Length	Classic Price per m ²	Natural Price per m ²
	28 mm	200 mm	1 - 5 m	82 EUR	62 EUR
			5 - 7 m	114 EUR	86 EUR

Douglas – Full lengths

Full-length planks are an elegant solution. The clean lines make for a calm expression and can be used to highlight the architecture of a room. Full lengths are a good choice if you want a simple and clean expression. It takes large amounts of raw wood to produce full-length planks, so delivery time may be long.

Douglas - Historical planks

Historical planks create a particularly elegant and harmonious expression by virtue of the extraordinary dimensions. A magnificent and extravagant solution with a clear reference to the majestic Douglas tree. With historical planks, we utilize the raw wood in the best way possible by letting the plank follow the shape of the tree trunk. The planks are available in Classic.

Full lengths	Thickness	Width*	Length**	Classic Price per m ²
	28 mm	200 - 400 mm	1 - 5 m	112 EUR

Douglas - Pattern

Pattern is an option where large planks are laid in familiar historical patterns. A modern solution with respect for history, which takes on a contemporary and exclusive appearance due to the proportions.

For planks wider than 300 mm, make sure to allow for the fact that the planks have to be laid with a 2 mm gap in accordance with Dinesen's additional "Pattern" instructions.

Herringbone

Solid planks laid in a herringbone pattern is a timeless solution. Choosing large dimensions in the individual planks takes the classic pattern to new heights with an impressive expression and an elegant look.

Chevron

A distinctive graphic pattern that takes on even more character in large plank dimensions. Finishing the planks in the same color creates a beautiful uniform expression.

A Chevron floor is made from planks in full lengths adapted to the individual rooms to ensure the best possible solution. The planks are chamfered on site as part of the assembly to ensure sufficient precision. Overall, the material consumption is increased for a Chevron floor compared to other pattern floors due to the consumption partly in connection with the individual adaption and secondarily in connection with the geometry of each room, which is why the m2 prices in this price list cannot be used without calculating the consumption first. Based on a floor plan, our employees are happy to evaluate and calculate a Chevron floor for your particular project.

Mosaic

The mosaic pattern is a classic solution which achieves a new and elegant expression with solid planks in larger dimensions than what is traditionally used. The pattern can be individually customised and attracts attention with its extraordinary dimensions.

Bond

The planks are laid in a bond, giving you the option of putting your own personal touch on the expression in your choice of dimensions. A traditional solution that creates a smooth transition and a beautiful interplay between the solid planks.
